Why Citatah

Founded in 1987 and traded on New York's Nasdaq exchange since 2012, Caesarstone pioneered the engineered natural quartz market. Caesarstone's quartz surfaces are durable, flexible, nonporous and resist heat, stains and scratches—tailormade for kitchen counters, bar tops, tables, and vanities, as well as wall and floor cladding.

The only distributor for Caesarstone in Indonesia, Citatah has been offering four collections of the Caesarstone range since 2010. The Metropolitan collection caters to the industrial design trend with a cool, contemporary concrete palette. Supernatural models natural stone with the resilience of engineered quartz, while Classico comes in a wealth of elegant, muted designs, perfect for business and residential alike. Concetto Collection, surfaces made from semi-precious stones.

5810 Black Tempal NEW

Why Caesarstone?

Why Caesarstone?

Caesarstone Ltd. manufactures premium quartz surfaces, which are used in both residential and commercial projects as counter-tops, vanities, wall cladding, floors and other interior surfaces. Caesarstone combines beauty with outstanding performance, enabling you to bring your design imagination to life.

Why Quartz?

Quartz is more than beautiful. It is also one of nature's hardest minerals. Containing approximately 90% natural quartz, Caesarstone surfaces combine practicality with stunning design.

The Advantages of Quartz

Durable

Quartz is more durable than most stone, marble and granite. It is impervious to stains, scratches and cracks, and is highly heat and cold resistant.

Stain Resistant

Our quartz surfaces are extremely hard-wearing and will withstand virtually all the challenges of everyday life.

Easy Care & Maintenance

Caesarstone surfaces don't need sealing, treating, polishing or any other form of maintenance, except a simple wipe clean with mild detergent and water.

Easy to install

Caesarstone quartz surfaces are highly adaptable and can be cut to fit nearly any space. Just ask your local certified Caesarstone fabricator for the best installation advice.

Design Flexibility

With the cool, tactile qualities of Caesarstone, you can create a huge range of designs – curved, shaped and many others. Caesarstone lets you free your imagination.

5810 Oxidian - NEW

Bring your design dreams to the surface with Caesarstone

Your kitchen surface is the focal point of your home. You trust that it is of the highest quality craftsmanship and made with only the best materials available. Caesarstone consists of up to ~90% quartz – one of nature's strongest minerals – and combines beauty with outstanding performance, allowing you to bring your design imagination to life.

Founded in 1987, Caesarstone is the pioneer of engineered quartz surfaces. Its leadership position in the market is achieved through a continuous focus on research and development and technical investments. For three decades, Caesarstone has set new standards for innovation and craftsmanship and continues to set trends in the industry.

NEW
The Outdoor Collection
The Ultimate Kitchen Surface for the Outdoors

Made for Outdoor Living

Caesarstone Outdoor was designed to have excellent performance. After thorough testing both in the lab and in the field, we have proven that Caesarstone’s Outdoor surfaces are highly resistant to all seasonal weather and environmental conditions; every day wear and tear; and have exceptional functional and physical properties. Caesarstone Outdoor surfaces remain consistent after long term exposure to the sun and seasonal changes.

Care and Maintenance

Care & maintenance, and stain removal for Caesarstone Outdoor are the same as for indoor Caesarstone surfaces. In addition, we recommend the following to keep your Caesarstone Outdoor looking its best:

- Cover the countertop when not in use..
- Do not leave metal objects on the countertop as they may cause rust stains.
- Do not use deep fat fryers on the surface
- Clean any stains or residue as soon as possible to prevent them from drying on the surface.

Performance

For the first time, Caesarstone is taking its loved, premium surface to the outdoors. Designed, innovated and tested to withstand the sun's rays and the most extreme environmental conditions over the long term, the new Outdoor Collection provides an answer for consumers’ desire to cook, dine and entertain comfortably in an outdoor kitchen.

The Industry-first Outdoor Collection is designed with an innovative technology that combines the convenience of stain resistant, easy to clean, highly durable surface with properties that withstand all the elements-come rain, snow or shine.

Caesarstone Outdoor vs. Alternate Outdoor Materials

		Caesarstone Outdoor	Ceramic	Granite	Concrete	Stainless steel
Mechanical and physical properties	Flexural Strength Shows the mechanical strength of the product (e.g how much weight it can endure).	+++	++ ¹	++ ¹	+	N.A

405 Midday
The Outdoor Collection

405 Midday

Sitting quietly alongside stainless steel cooktops, Midday works equally well next to neutral façades, tiling and stone or light wooden decking. The organic look correlates to the beauty of nature, conjuring up relaxing gardens with metal furniture in white or glass – or more classic seating in wicker. Plant pots in warm grey, beige or terracotta complete the outside setting; the surrounding green foliage creating a play of light and shadows on this stylish countertop.

406 Clearskies

Contemporary backyards embrace organic materials such as concrete, slate, clay pavers and wooden decks, finished by black garden lighting and metal furniture. These are each complementary to Clearskies, which brings the earthen look of a pebble's surface to outdoor countertops, backsplashes and tables. Stovetops in either stainless or black, with steel and brass accents bring a stylish accent to other items such as handles and cookware. Healthy meals are prepared outdoors by grilling, steaming and smoking, served on plates of any material including ceramics, wooden planks or slate boards.

515 Palm Shade

515 Palm Shade

Taking the classic look of white marble outside, Palm Shade has the ability to define the kitchen garden: as an elegant counter next to stainless steel barbecues, a contemporary contrast to wooden butcher-block, or as a spectacular island by the pool. Its white base and discrete veining are anything but plain; its translucency giving the surface authentic depth. Versatile by design, this beautified stone complements neutral facades and multiple landscaping materials, decking and pavers. Palm Shade is a fresh accent that brings lightness to an outdoor setting, where preparing food has never been so refined.

6134 Georgian Bluffs™

6134 Georgian Bluffs™

Discerning. Light-toned.
Georgian Bluffs™ reveals a discerning marble interpretation characterised by its soft light grey base with streams of white and grey veins. Its natural look and feel offer an extraordinary industrial edge.

Uniquely crafted, Georgian Bluffs™ evokes a timeless appeal working in harmony with a broad range of interior design styles, eras and materials. Pair with organic materials for a modern earthy style or metallic materials for a semi-industrial feel.

NEW
5110 Alpine Mist™

5110 Alpine Mist™

Alpine Mist™ has a white cool grey base with, interestingly, crisp white veins, setting itself apart from the typical light marble colour combination.

NEW
5114 Calacatta Maximus™

5114 Calacatta Maximus™

5114 Calacatta Maximus™

Calacatta Maximus captures this trend. Its oversized veining traverses the slab terrain, a complex and layered composition animating a pure white background; the contrasting soft grey veins enriched by fine copper-gold outlines, reflective of the authentic mineral deposits found in nature. In stylish interiors, these directional strokes create a dramatic visual effect as islands and splashes alike. Available in either a subtle Natural finish, for an organic look with a warm sensorial touch, or in a glossy Polished finish, for a more defined, luxurious look.

Calacatta Maximus' emotive structure makes it suited for creating a statement about new luxury. Brushed steel or chrome accessories further evoke a refined image; tokens of glamour in an otherwise minimal interior.

Complimentary materials bring balance: oak parquet to keep it understated, concrete to add a sense of the industrial or black cabinetry and tiles to create contrast. American walnut is a high-end alternative to white – creating a warmer environment – while colourblocking with bright feature walls or vivid appliances liven up the experience.

Metropolitan Collection

The Metropolitan Collection is crafted beauty reflective of the layers found in industrial art and architecture, highlighting dimensional surfaces and unpolished colors, and bringing texture to the surface.

These designs exemplify the authentic dimensions of manufacturing such as oxidized steel, poured plaster and raw concrete. The colors are inspired by factories and lofts that translate into residential and commercial interiors.

Finish Descriptions

Polished

An elegant and highly reflective surface that is smooth to the touch. Caesarstone's Polished finish emphasizes color and sets the tone for sophisticated spaces with its stunning luster. The sleek surface helps a room appear more spacious, adds luxury to interiors, and boasts remarkable style and endurance. Our standard finish is designed for life, requiring minimal care and maintenance.

Honed*

A satiny finish with low sheen and a natural, less formal aesthetic. Caesarstone's Honed finish exudes an organic appearance with its low light reflection, while retaining a stylish, authentic quality with high design appeal. Smooth to the touch, yet soft on the eye, our Honed finish is in perfect harmony with both classic and modern design approaches.

Concrete*

A lightly textured concrete complexion that adds a sensorial dimension to any space. Caesarstone's Concrete finish has a soft earthiness with low light reflection, similar to Honed but with a tactile effect. The surface evokes a natural feel that brings balance to a room, while delivering a classic industrial presence.

Rough*

This rich, complex, technologically advanced surface offers a compelling tactile effect, while still retaining a smooth profile that is inviting to touch. Caesarstone's Rough finish has a distinctive, coarser look with low light reflection, inspiring a modern industrial vibe.

Our Rough finish is designed to reflect the authentic patinas of industrial materials, the variations in appearance capture real depth and movement, revealing different qualities that make each slab distinct. Applications featuring multiple slabs will experience inherent visual differences.

Natural*

This slightly textured finish conjures up the emotional caress of stone; adding warmth to the grain so it's pleasing to the touch. A satin sheen that gently reflects light - captivating the viewer and enhancing the depth of a color, especially on darker shades. Our new Natural Finish combines the appeal of texture one can actually feel - with the practicality of the minimal care and maintenance synonymous with all Caesarstone products.

* Please note that Honed, Concrete, Rough and Natural finishes require more frequent cleaning than our Polished finishes. Since there is a more exposed surface area with these finishes, metal marks, fingerprints and other signs of daily living might show on these finishes. Most of these marks can be removed with little effort and non-abrasive cleaning products such as Soft Scrub® Liquid Gel. **Caesarstone retains its beauty without sealants or waxes.**

Because of the unique properties, our photos and website images are not fully representative of the surface. When considering these finishes, please order a sample or view a full slab at a retail location.

www.caesarstoneus.com/finishes

Edge Profiles

Your surface is not complete without an edge profile to complement your slab selection and space. With Caesarstone, selecting the best fit is easy. The unique properties and durability of Caesarstone quartz surfaces allow for a wide range of edge profile design options.

Many edge profiles are possible, from a standard edge to laminated or mitered edges which create the appearance of a thicker slab. **All edge details should have a minimum 1/8" radius on any profile, for both top and bottom edges. For high-traffic areas, 1/4" minimum radius is suggested.**

Slab Size and Slab ID

The underside of every Caesarstone slab is uniquely stamped with identification information establishing authenticity. Beware of imitation slabs.

Care and Maintenance

Its hard, nonporous surface makes Caesarstone simple to clean. In most cases, soap and water or a mild detergent is all that is required to maintain its luster. Please note that Caesarstone finishes other than polished may require increased daily maintenance due to their unique patterns and finishes. Since there is more exposed surface area with these finishes, metal marks, fingerprints and other signs of daily living will show on these materials.

Benefits

Caesarstone quartz surfaces are the ultimate combination of nature and technology. Nonporous, scratch resistant and highly resistant to stains, Caesarstone retains its beauty without sealants or waxes and is practically maintenance-free.

Surfaces That Go Beyond the Kitchen

Caesarstone surfaces are not just for kitchen countertops. They are popular for use around the fireplace, on featured walls and in the dining room to add a touch of style and sophistication.

The surfaces are ideal for furniture pieces like coffee tables and entertainment units, and they are perfect for wet areas, like bathrooms and wet bars, due to the nonporous nature of the material.

Certifications

Caesarstone is committed to sustainability, quality and meeting health standards.

“

Caesarstone earned the Good Housekeeping Seal through evaluation by our Research Testing Institute and was found to be a product that will deliver excellent results and performance. Earning the Seal by passing our engineering and consumer usage evaluations speaks volumes about the high regard Good Housekeeping holds for the Caesarstone product.”

Caesarstone is the only quartz manufacturer that earned the respected Good Housekeeping Seal from Good Housekeeping Research Institute in addition to ISO 14001 (environmental management system), ISO 9002 (quality management standard), GREENGUARD certification, a member of USGBC (The U.S. Green Building Council) NSF (public health and safety) certification and HPD 2.1(Health Product Declaration).

This environmentally-responsible attitude extends from production to product, with several colors featuring recycled content.

Our mission is to preserve the planet by creating sustainable products. Caesarstone has also pioneered environmental and sustainability standards, such as recycling 97% of water used in manufacturing and collecting dust from shipping, handling, production, and processing.

Designed for Life

A Culture of Quality— Backed by a Lifetime Warranty

As a leader in our industry, we are committed to the highest quality of our products' technical characteristics, sustainability and certification, which allows us to offer you a Caesarstone Lifetime Warranty.

You can have peace of mind knowing that your Caesarstone is going to last even in high-traffic areas.

Customer Service

When considering investing in a premium quartz surface, there is one thing you should know: The surface you choose is only as good as the company that stands behind it, especially when it comes to customer service.

At Caesarstone, we know that once the installation is complete, our job has just begun. Your satisfaction and service experience are very important; you can count on us.

Caesarstone will warrant, from the original date of installation, material that fails due to any manufacturing defect when fabricated and installed by a Caesarstone Certified Fabricator.
